

DAVE ARCILA

2026

CURRICULUM VITAE

Hi! I'm Dave. A seasoned game designer, level designer and narrative designer with over 12 years of experience in the gaming industry.

I started my career making Flash games back in 2010 and since then I've been actively seeking opportunities to create immersive and engaging games.

If you're on the lookout for a dedicated and innovative team player, I'm ready to bring my enthusiasm and expertise to your organization.

PROFESSIONAL EXPERIENCE

FEBRUARY 2025 - APRIL 2026
GAME AND LEVEL DESIGNER FOR ForeVR Games

In my role as Game and Level Designer, I contributed to the development of interactive experiences for both Meta Horizon and Reddit. I focused on designing engaging, accessible gameplay spaces that encouraged exploration, social interaction, and replayability across multiple platforms.

- Designed and implemented levels for Fire & Rescue (Meta Horizon), focusing on cooperative gameplay and spatial flow to enhance team-based interactions across VR, mobile, and desktop platforms.
- Developed levels for Kaboom (Reddit), emphasizing fast-paced gameplay, clarity, and UGC player engagement within social play environments.
- Created level content for Paint the Block (Meta Horizon), prioritizing creativity, player expression, and intuitive navigation across VR, mobile, and desktop platforms.
- Designed Meta Horizon experiences with a multiplatform approach, ensuring consistency and usability across VR, mobile, and desktop devices.
- Iterated on level layouts based on playtesting feedback, improving pacing, usability, and engagement across multiple titles.

Fire&Recue, Paint The Block and Kaboom are published in:

AUGUST 2024 - JANUARY 2025
NARRATIVE DESIGNER FOR BLUE GRAVITY STUDIOS

In my role as Narrative Designer for Little Sim World, I was responsible for writing engaging NPC dialogues and collaborating on the design of quests. I worked closely with the development team to ensure that the storytelling aligned with the game's cozy and inviting atmosphere

- Crafted engaging and immersive NPC dialogues, ensuring each character's voice and personality felt distinct and authentic.
- Designed detailed NPC profiles, contributing to the game's rich worldbuilding and narrative depth.
- Collaborated on the design of quests and cinematics, enhancing player immersion through compelling storytelling and seamless integration of narrative elements.
- Contributed to creating a cozy, inviting atmosphere that aligns with the game's overall tone and player experience.

Little Sim World is published in:

FEBRUARY 2024 - MAY 2024
LEAD GAME AND LEVEL DESIGNER FOR 4th Wall Breakers

In my role as the lead designer for CoasterMania, I was responsible for both the overall game design and the level design. Here are some of the key contributions I made:

- I authored a comprehensive game design document that served as the blueprint for CoasterMania. This document detailed the core game mechanics, the integration of physics toys, and the implementation of challenge rings

- I designed 52 distinct levels for CoasterMania spanning across 4 worlds, each crafted to provide a balanced and progressively challenging experience, having in mind the difficulty curve, a thematic variety and player engagement

Through these contributions, I aimed to create an immersive and engaging XR/VR experience for use with the Meta Quest 2/3 headsets.

Coastermania is published in:

AUGUST 2022 - DECEMBER 2023
GAME DESIGNER FOR OHBABY GAMES

- Spearheaded the conceptualization and design of gameplay mechanics for Oh Baby Kart!

- Collaborated closely with cross-functional teams, including artists and programmers, to ensure seamless integration of design elements into the game's framework.

- Conducted thorough playtesting sessions, gathered user feedback, and iteratively refined game features to enhance player engagement.

I also worked on other 3 projects that are still under NDA. This projects are:

- #1. Level design, Controller design, moveset design for a Metroidvania style game
- #2. Lead game design, mechanics design, enemy design and progression design for an Auto-battler style of game
- #3. Game design for an RTS+Survival style of game that focused on Base Building and colony sim

Oh Baby Kart is published in:

JANUARY 2012 - MAY 2013
GAME DESIGNER AND LEVEL DESIGNER FOR PROFUSION GAMES

At Profusion Games, I contributed to the creation of innovative and engaging gaming experiences across different game genres going from pixel perfect platformers, to puzzle games, to shooters with RPG elements.

My responsibilities included:

- Designing of core game mechanics and balancing gameplay to provide a challenging yet enjoyable experience for players.
- Creation of detailed level designs, including maps, layouts, and environmental storytelling elements, to ensure immersive and cohesive game worlds.
- Analyzed playtesting session data to implement iterative design based on feedback .

Games published in:

JANUARY 2011 - DECEMBER 2011
GAME DESIGNER FOR HighUpStudio.

- Concept development, game mechanics and prototyping, level design, Pacing and Flow as well as puzzle and Challenge Design.

- Designed and balanced game mechanics to ensure engaging gameplay, player progression, and replayability. Created detailed design documents and flowcharts to communicate game mechanics to the development team.
